## VISIONS AFTER MIDNIGHT

22 November - 10 December 2011

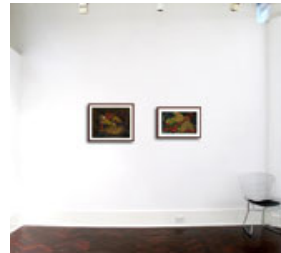

*'Midnight...the witching hour, the dead of night...a time for insane dreamery, nocturnal nonsensical impressions and mad hallucinations. In the darkness of the nights shadows I create my stage and the characters that inhabit that theatrical psychological space. The actors on my dream stage play a role to describe not only my creative process but the continuing journey of expressions of my world...sometimes intimate and personal...sometimes more reflective on society.'*
