

**SUSAN O'DOHERTY**  
**TIME PIECES**  
 20 March -14 April 2012

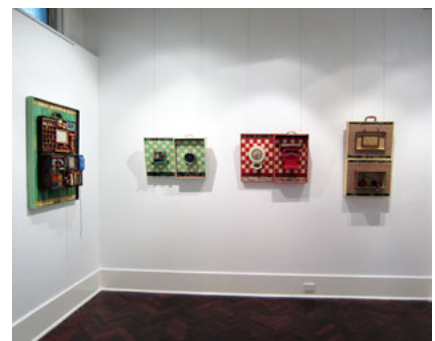

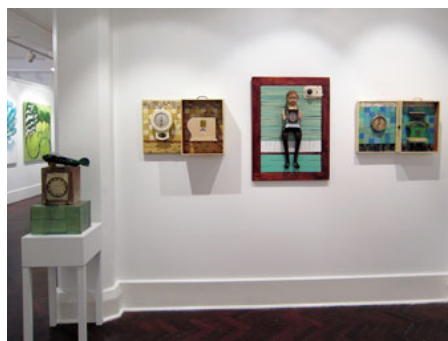

Susan O'Doherty repurposes a range of found objects into striking and provoking assemblages that speak of our domestic lives and identities.

*'These assemblages relate to the ephemeral and transitory nature of time, how it is such a dominating yet invisible presence...it can be measured but never held. As a society we are always looking back into the past and forward to the future. We structure our existence around clocks, calendars and time lines, hence my use of old clocks, appliances, tape measures, dominos, furniture parts and dismembered dolls to represent obsolescence and relevance.'* Susan O'Doherty 2012

Susan O'Doherty is one of Australia's leading assemblage artists. She has been selected for art prizes, including the Redlands Westpac Art Prize, Mosman Art Prize, Norvill Art Prize and the Cadrys Art Prize.
