

**RICHARD BLACKWELL**  
***Grotto Volume 3***  
**27 April - 14 May 2011**

Richard Blackwell continues his fascination with real and virtual boundaries for *Grotto Volume 3*. Following on from his solo shows in Canberra (*Grotto 1*) and Chicago (*Grotto 2*), Blackwell employs veneers, digital projections and aluminium printing techniques to play with ideas of spatial distortion, inspired by architectural forms and landscapes. Illusionary tropes transform accepted constraints between interior and exterior to create new readings of accessible and impenetrable space.

Blackwell graduated from ANU School of Art, Canberra in 2008 and has since shown nationally and internationally. His work is represented in the collection of Artbank and various private and corporate collections nationally.
